Summary

I am a software engineer with over four years of experience. I am dedicated to problem-solving and enhancing team performance. My journey has been marked by successful project management, client collaboration, mentoring budding developers, and the thrust to learn and implement cutting-edge solutions.

Experience

Coforge Ltd.

Senior Software Engineer (GET / SE / SSE)

Gurgoan (IN)

Nov 2020 - Present

Project: SUBSCRIBE (Non-life Insurance Software) *Clients: London, Bermuda, Romania, etc.*

Roles and Responsibilities:

- Collaborated directly with clients to define and understand solution requirements for applicable development variables, resulting in a 25% increase in client satisfaction.
- Analyzed proposed technical solutions based on customer requirements, budget, and product goals, leading to a 15% reduction in project costs.
- Prepared detailed reports on updates to project specifications, progress, identified connections, and team activities, enhancing project transparency by 30%.
- Developed logic, debugged codes, and created scripts to fix issues raised by clients, reducing client-reported matters by 15%.
- Prioritized tickets, assigned tasks, tracked tickets, and directed reports to the manager, improving task resolution time by 25%.
- Trained and mentored 10+ freshers, junior developers, and engineers, teaching skills in SQL and Lloyds of London Insurance, contributing to a 30% improvement in overall team performance.
- Discussed project (BAU) progress with customers, collected feedback at different stages, and directly addressed concerns, resulting in a 22% improvement in project feedback ratings.

Education

GL Bajaj Institute of Technology & Management, Greater Noida

Electronics & Communication

9.2

B.Tech

Jul 2016 - Aug 2020

Achievements: Head of innovation Cell.

Thesis: BER based fading of Signals
